

KS

Producing freshly ground coffee on demand at the push of a button

With the ECA range of semi commercial grinders we are able to provide complete solutions to the fundamental requirements of the most professional home barista needs for prestige equipment: to dispense a uniformed, superior and consistent finely ground coffee for an optimum espresso outcome.

The ECA KS Grinder offers a direct grind on demand option for the home barista enthusiast producing the freshest ground coffee on demand at the push of a button.

The waste caused by over grinding coffee is greatly reduced with this KS model. Limiting the unnecessary waste of your fresh coffee.

- Quality Construction:**
 The powerful motor of these semi-commercial quality grinders ensures consistent grinding results required for high quality espresso machines and ultimate espresso cup quality.
- Tempered Steel Burr Grinding Wheels:**
 Made of tempered steel, these grinding blades will provide a long life with excellent performance. The consistent grind size is the key in the production of a superior espresso with rich flavour and aroma.
- Grind Applications:**
 French Press, Percolator, Vacuum Pot, Drip Coffee, Stovetop Mocha, Espresso Machines (for both traditional and pressurised filter handle types).
