

For a traditional volumetric professional espresso coffee machine, ECA are able to provide an exceptionally priced commercial machine in 2 and 3 groups.

With several innovative patent applications currently in progress, the Plus brand has had great success in over 12 countries in the last 3 years, by providing solutions through their continuous research and development and attention to detail.

The machines are practical and built around fundamental commercial principals that provide outstanding espresso flavour profiles.

The exceptional build quality and design ensures reliability in its function and is aesthetically balanced.

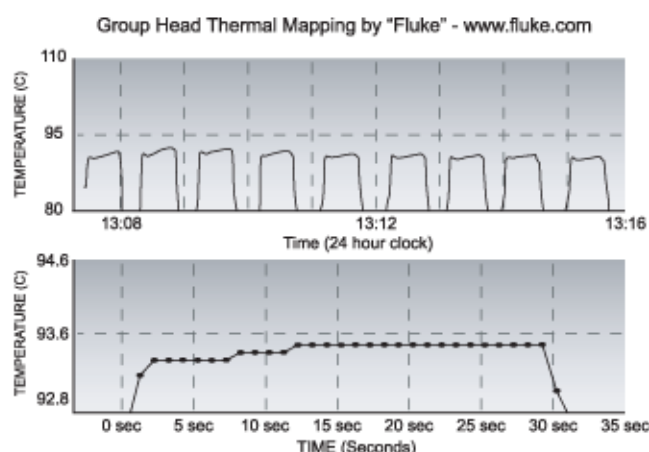

Features include:

- **Large capacity stainless steel boiler.**
- **Patented cup holder for traditional size espresso and cappuccino cups up to extra large takeaway cup clearance.**
- **A simple touch pad command allows the user to perform an 8x programmed cleaning and rinsing cycle of the group heads, and activation of electronic pre-infusion option.**
- **The touchpads display a digital counter for the exact time of each extraction which can be balanced against the grinder for an optimal espresso.**
- **Dual probe safety system for high and low boiler water levels.**

Plus model 333 (3 group)

Model	323	333
Brewing Groups	2	3
Group Height Clearance	135mm	135mm
Brew Head Style	58mm commercial	58mm commercial
Boiler	13.5 litre	18 litre
Thermosyphon system	heat exchange	heat exchange
Coffee Preinfusion	static & electronic	static & electronic
Chromed Brass Wands	360°	360°
Steam Valve Control	1/2 turn	1/2 turn
Length x Depth x Height	710mm x 500mm x 520mm	940mm x 500mm x 520mm
Weight kg	54.5kg	70kg
Heating Element Wattage	4000w	5000w
Voltage - Current Draw	240v (20 amp)	240v (25 amp)
Boiler Contamination Protection	anti-vacuum valve	anti-vacuum valve
Group Head Temperature Control	Hx restrictors	Hx restrictors
Element Protection	Element time out protection and low water warning probe	Element time out protection and low water warning probe
Water Reservoir Level Protection	Dual probe system	Dual probe system
Support	Local rate technical support - 1300 326 326
