

Q9

QUALITY ESPRESSO®
Quality Espresso

The quickest fresh coffee grinder on the market

The Q9 Series commercial coffee grinder has an elegant yet durable aluminium body with a streamlined presence.

Q9 is the quickest fresh coffee grinder on the market and is ideal for busy locations that need to maintain high levels of quality and consistency for espresso preparation.

Q9 will deliver an exact measure of freshly ground coffee on demand for every 1 and 2 cup portions allowing every opportunity to create the consistent cup quality needed to maximise flavour, body and the aroma of the espresso.

Q9 has super long life grinding blades made from special high tempered steel which last up to 3 times longer than most other grinder blades on the market

Dual Settings:

- Dose on demand: delivering pre ground coffee on demand for the peak trade times.
- Grind on demand: each dose is freshly ground on demand to maintain coffee freshness.
- ideal for the slower periods of trade throughout the day.

Digital Display:

- Digital read out for each programmed setting.
- Digital display for auditing of the coffee servings counter.
- Precise and easy to adjust grinding control to increase or decrease the selected coffee dose.
- Ability to adjust the grinding blades to within 0.006mm offering maximum control of grind selection.
